

Giripriya Mummareddy

IT Developer — Fresher — B.Tech Computer Science 2026

9676482246 — giripriyamummareddy@gmail.com — Vijayawada, Andhra Pradesh
www.linkedin.com/in/giripriya-mummareddy-0a588b259

PROFILE

Computer Science Engineering graduate with hands-on experience in Python, Java, SQL, REST APIs, data engineering, and AI/ML applications. Experienced in building data-intensive applications using PySpark, developing RAG and LLM-based solutions, and applying data validation, semantic search, debugging, and testing. Strong foundation in Object-Oriented Programming, DBMS, Data Structures and Algorithms, and SDLC, with internship experience in Java Full Stack Development, Data Engineering, and AI-ML. Seeking to build reliable backend systems, data pipelines, API integrations, and AI-powered solutions in a fast-paced engineering environment

EDUCATION

B.Tech – Computer Science Engineering SRk Institute of Technology, Vijayawada Percentage: 77%	2022 – 2026
Board of Intermediate Education, Andhra Pradesh SVL Junior College, Avanigadda Percentage: 61%	2020 – 2022
Board of Secondary Education, Andhra Pradesh N.L.V.R.G.S.R.V School, Nimmakuru Percentage: 94%	2019 – 2020

TECHNICAL SKILLS

Programming: Python, Java
Web / Frontend: HTML, CSS
Database: MySQL
Cloud Computing: AWS EC2, Amazon EBS, Linux, Cloud Deployment Basics
Core Computer Science: Data Structures & Algorithms, Full Stack Python.
AI: Generative AI, Agentic AI, LLMs, Retrieval-Augmented Generation (RAG), Semantic Search, Mcp.
Data Engineering: PySpark, Distributed Data Processing, Data Validation, Data Transformation, Data Analysis, Pandas, Matplotlib.
Tools: Visual Studio Code, MS Office
Operating Systems: Windows, Linux (Basics)

INTERNSHIPS

Full Stack Development – Java Internship <i>Datavalley India Pvt. Ltd.</i> Completed a long-term internship focused on Full Stack Development using Java and software development practices.	December 2, 2025 – March 30, 2026
Data Engineering Internship <i>AWS Academy / EduSkills</i> Gained hands-on knowledge in embedded system development, microcontroller programming, and hardware-software integration.	Apr–Jun 2024
Cybersecurity Virtual Internship <i>ExcelR EdTech Pvt. Ltd. × APSCHE</i> Learned core cybersecurity concepts including network security, ethical hacking fundamentals, and threat analysis techniques.	Jun – Aug 2024
AI – ML Virtual Internship <i>AWS Academy / EduSkills</i> Implemented AI and Machine Learning algorithms, including supervised and unsupervised learning models using Python.	April – June 2025

PROJECT

Telecom Big Data Analytics using PySpark

2025 – 2026

Python — PySpark — Apache Spark — Distributed Data Processing Validation — Data Transformation — Pandas — Matplotlib — Data Analysis — Big Data Analytics — Data Engineering

- Developed a telecom analytics application using PySpark to process large-scale Call Detail Records through distributed data processing.
- Performed data validation and generated analytical reports to support analysis of telecom usage and operational data.
- Used Pandas and Matplotlib to analyze and visualize processed data, translating raw records into actionable insights..

RAG-Based Document Search

2025 – 2026

RAG — LLMs — Generative AI — Semantic Search — Embeddings — Document Processing — Information Retrieval — AI Workflows — Testing

- Built a Retrieval-Augmented Generation prototype for document-based question answering..
- Implemented semantic search using embeddings and explored retrieval workflows for improving response relevance..
- Worked with LLM-oriented workflows and evaluated the application through iterative testing.

AI Chat Assistant

2025 – 2026

Python — Generative AI — LLMs — Prompt Engineering — Chatbot Development — LLM Integration — Debugging — Testing

- Developed a Python chatbot with prompt-based workflows and explored LLM integration.
- Performed debugging and testing to identify and resolve application issues.

Certifications

- Oracle Cloud Infrastructure Certified AI Foundations Associate. *1 July 2026 by Oracle*
- Oracle Cloud Infrastructure Certified Foundations Associate *9 July 2026 by Oracle*
- Generative AI Course *November 2024 — Google Cloud Skills Boost — L4G*
